To whom it may concern,

CJK Engineering Ltd has been engaged by Synergy Engineering on behalf of Nuritas, to carry out two major projects at their new headquarters in Dublin, during 2018.

CJK Engineering Ltd was appointed as the Electrical Contractor for both projects after successfully winning a competitive tender process. As the electrical contractor CJK Engineering, completed tasks in electrical services installations, back-up power generation, life safety protection and modifications of the utility services to the building.

Synergy Engineering Ltd are satisfied with the services provided by CJK Engineering on the projects. They were responsible for the co-ordination, planning, installation, testing and commissioning of all areas of the specialist works carried out on the projects.

The quality of the workmanship was in accordance to the specifications and was to a very high standard. CJK Engineering were very responsive in resolving any issues that arose. We continue to work with CJK Engineering and would have no hesitation in recommending them for large or complex projects where a high level of competency and previous performance records are essential.

We have found CJK Engineering Ltd to always be co-operative, professional and proactive in their approach to delivering projects on time and within budget.

Yours faithfully,

A handwritten signature in blue ink, appearing to read "Stephen Tracy", is written over a horizontal line.

Stephen Tracy,

Senior Electrical Engineer,

Synergy Engineering Limited
